SHERLOCK HAWKINS – CON AIR CANADA'S MDA – NORTH TOWER MARCY'S BRIDGE OF P.R.E.Y.™

October 17, 2018 | Site Admin |

Source: [Patreon](#)

With this post, David "Sherlock" Hawkins looks at the apparent role of Canada's CAI Private Equity Group and its investee Macdonald Dettwiler and Associates (MDA) in the development of Entrust PKI to conceal the alleged use of SBA mentor-protégé companies to execute pitch, roll, evade and yaw (P.R.E.Y.™) manoeuvres of the aircraft hijacked on 9/11 over the Federal Bridge Certification Authority (FBCA) network and the alleged use of prisoners on the Nortel and the Department of Justice's (DOJ) Joint Automated Booking System (JABS) to remove evidence from crime scenes through Jerome Lemelson's "Prisoner [Con Air] tracking and warning system and corresponding methods 2000-04-25 US0054928A Grant".

Hawkins alleges that MDA equipped Kristine 'Con Air' Marcy, the sister of Marine Corps whistleblower Field McConnell, with the Entrust keys to the federal bridge which allowed her Con Air colleagues to switch a 9/11 simulation exercise to live fire and allowed one of Marcy's SBA mentor-protégé companies, [Sercio-Base One Technologies](#), to spot fix the location and time of impact on the North Tower (WTC1), 40 floors above a meeting of now-terrified Sercio shareholders and 8:46:40 a.m. and to start the online dead-pool betting on body counts.

OUR BITCHUTE VIDEOS

With this post, David “Sherlock” Hawkins looks at the apparent role of Canada’s CAI Private Equity Group and its investee Macdonald Dettwiler and Associates (MDA) in the development of Entrust PKI to conceal the alleged use of SBA mentor-protégé companies to execute pitch, roll, evade and yaw (P.R.E.Y. TM) manoeuvres of the aircraft hijacked on 9/11 over the **Federal Bridge Certification Authority (FBCA)** network and the alleged use of prisoners on the Nortel and the Department of Justice’s (DOJ) Joint Automated Booking System (JABS) to remove evidence from crime scenes through Jerome Lemelson’s *“Prisoner [‘Con Air’] tracking and warning system and corresponding methods 2000-04-25 US6054928A Grant”*.

Hawkins alleges that MDA equipped Kristine ‘Con Air’ Marcy, the sister of Marine Corps whistleblower Field McConnell, with the Entrust keys to the federal bridge which allowed her Con Air colleagues to switch a 9/11 simulation exercise to live fire and allowed one of Marcy’s SBA mentor-protégé companies, [Serco](#)-Base One Technologies, to spot fix the location and time of impact on the North Tower (WTC1), 40 floors above a meeting of now-terrified Serco shareholders and 8:46:40 a.m. and to start the online dead-pool betting on body counts.

To Whom It May Concern:

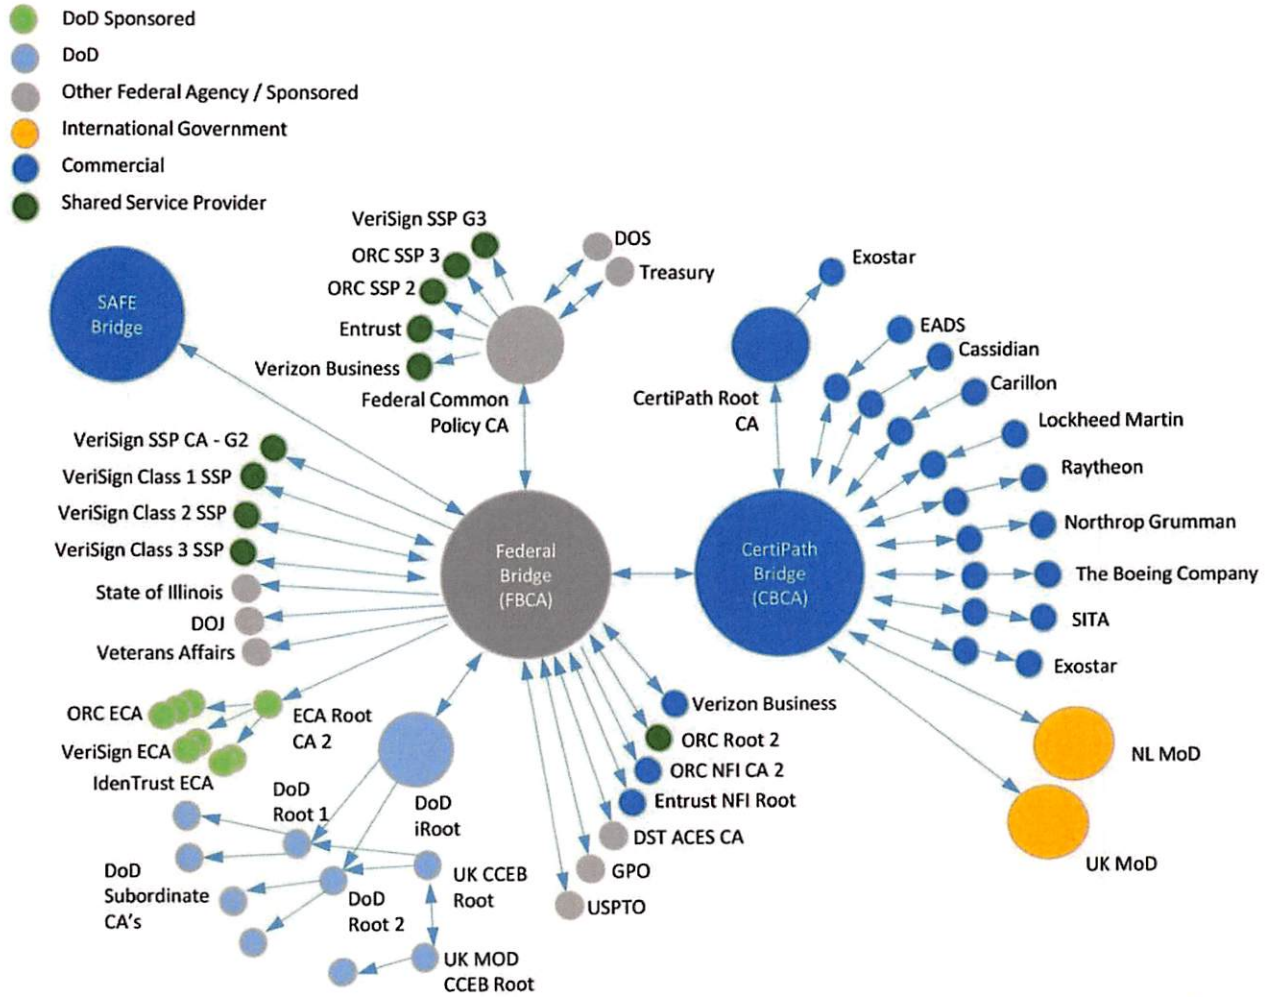

Field McConnell – United States Marine and Global Operations Director of Abel Danger (AD) – has linked Serco's Demon face-recognition software, allegedly used by City & Guilds alumni to help Hillary Clinton track pedophile pimps through the federal bridge certification authority, to Maureen Baginski, Serco's V-P Intelligence Services and the former head of NSA's Signals Intelligence Directorate, whose "Shadow Brokers" have been and are now blackmailing victims into standing down sovereign-state defenses to Ransomware-type viruses.

McConnell alleges that Serco used Baroness Garden, the former manager of City & Guilds (1988-2007) and her husband the late Timothy Garden to stage the Global Guardian federal-bridge resilience exercise on 9/11 when pedophile associates of Ms. Baginski and Ms. Clinton were able to liquidate U.S. assets, crash the capital markets and silence blackmailed witnesses.

The screenshot shows a YouTube video player. The main content is a presentation slide titled "Integration of Access Security with Cloud-Based Credentialing Services.pdf". The slide features a diagram with a large blue circle on the left labeled "CertiPath Bridge (CBCA)". Arrows point from this circle to a series of smaller blue circles on the right, each labeled with a company name: Lockheed Martin, Raytheon, Northrop Grumman, The Boeing Company, SITA, and Exostar. The video is being streamed live by Jason Goodman, whose profile picture and name are visible below the video. A red "Subscribe" button and "81K" subscriber count are also shown. The video has 3,123 views. The video player interface includes a progress bar at the bottom and a small inset window in the top right corner showing the live stream of Jason Goodman.

Does breaking the chain of custody nullify evidence from a legal standpoint? Does David Sweigert know this and actively seek to do so? Could ethical hacking break the chain of custody of critical evidence in some of the most sinister crimes of all time? David joins me to explore these and other questions.

The diagram illustrates a complex web of certificate authorities (CAs) and their relationships. At the center is the 'Federal Bridge (fBICA)'. To its left, a 'SAFE Bridge' connects to various VeriSign and ORC SSPs, as well as the State of Illinois, DOI, and Veterans Affairs. Below these are ECA Root CA 2, DoD Root 1, and DoD Subordinate CA's. To the right of the Federal Bridge is the 'CertiPath Root (CbCA)', which connects to a large number of corporate and government entities including EADS, Cassidian, Carillon, Lockheed Martin, Raytheon, Northrop Grumman, The Boeing Company, SITA, Exostar, NL MoD, and UK MoD. Other entities like Verizon Business, Federal Common Policy CA, DOS, Treasury, and USPTO are also shown in the network.
